

Business email powered by Microsoft Exchange helps employees to be more effective and productive

As the largest independent provider of Hosted Exchange, Intermedia is the clear choice for business email.

24/7 support

99.999% uptime guarantee

**Preserve capital:
no hardware to deploy**

**Minimize expenses:
simple monthly fees**

Intermedia's Business Email lets your company communicate and collaborate more effectively than with other email platforms. It also delivers a Worry Free Experience™ that lets you maintain your competitive edge – now and into the future.

On-the-go productivity

Business is no longer confined to the office. Exchange is designed specifically for touchscreens, mobile usability and offline productivity. It helps ensure your employees can be efficient regardless of location or device — even when they're offline.

Enhance core collaboration tools

As the world's leading platform, Exchange unifies business email, calendar, contacts and other Microsoft® applications. It provides your employees with all of the tools they need to work and collaborate with other colleagues. They can do it their way—where, when and how they want to.

Save capital and cut expenses

There's no need to purchase servers and license software, or spend weeks building or upgrading your infrastructure. With a predictable monthly per-user fee, you offload the costs of an on-premises deployment.

Simplify cloud services

There are certain IT services that you need simply to do business. Intermedia offers many services that integrate together like Email Encryption, Skype for Business or Office Apps. Getting all your essential IT services from one provider simplifies your deployment—the result is one bill, one password and one point of support.

CLOUD EMAIL FROM SMARSH

Onboarding and migration by our experts

We simplify your move to the cloud by doing all of the heavy lifting for you.

- Developing a customized migration plan specific to your needs
- Importing your complete Active Directory® as well as each user's mailbox data — including emails, calendar items and more
- Executing your plan entirely at your direction with minimal interruption to your end users

Preserve your capital

Why invest in on-premises servers when you can leverage our enterprise-grade datacenters to power your business?

- No hardware to buy and no server software to install
- Shift email costs to your operating budget
- Reinvest capital you'd otherwise sink into on-premises hardware

Robust security and reliability

Our cloud gives small businesses the kind of reliability and security enjoyed by the biggest Fortune 500 companies.

- **Performance.** We minimize network latency while maximizing processing capacity
- **Availability.** We offer 99.999% financially backed SLA
- **Data protection and security.** Our responsibility to protect your data is reflected across every aspect of our cloud

Superior 24/7/365 support

Customer support is available by phone or email 24/7/365.

- No outsourcing: you reach fully qualified and empowered technicians 24 hours a day

Balance control and simplicity

Our HostPilot™ Control Panel lets IT streamline management while retaining full control over your cloud.

- Manage all Intermedia services through a single interface
- Use our mobile HostPilot application for management via portable devices
- Empower employees to self-manage mailboxes, account settings, contact information, and more
