

Supervision Policy Tuning & Policy Library

DATA SHEET

Reduce noise and eliminate risk by optimizing supervision policies

The Challenge

In your demanding business environment, you don't have time to regularly create, review and edit your supervision policies. This can lead to outdated policies that aren't catching violations or policies that are producing false positives that bog down your review queues. Updating your policies is essential to mitigating your risk and saving your team time, however, you need an expert to walk you through the process.

The Solution

Supervision Policy Tuning and the Policy Library from the Smarsh Professional Services team enables you to optimize your supervision program and saves you valuable time. Our experts create, review and edit your policies to ensure they are the most effective at reducing risk and are in-line with the latest compliance regulations.

After consulting on your supervision goals and reviewing your current policies, our experts identify areas for improvement, edit your lexicon and set up a plan to test and monitor policy success. Additionally, with access to our evergreen Policy Library, you get a baseline of curated policies that you can build off of to ensure optimal compliance.

Key Features

- A library of baseline policies crafted to help you comply with the latest regulations
- Consulting with experienced policy and legal experts
- Crafting of custom policies designed for your organization's supervisory needs
- Testing and optimization of policies to ensure maximum effectiveness
- A detailed report highlighting key findings and recommendations
- Ongoing management of policy performance and system health

Methodology

Our Supervision team follows proven solution methodologies to ensure your organization is successful.
